

Coffee Grinders

Model T and Model S

The Model T and Model S grinders have polished stainless steel cases and are ideally suited to the Fracino Classic coffee machines.

The Model T grinder is operated manually by an on/off switch. The model S grinder automatically turns off when the dispenser has filled with ground coffee. Both grinders have adjustable grinding blades and coffee portion control. Coffee is dispensed into the filter holders by means of a flick lever mechanism.

Model	Height (mm)	Width (mm)	Depth (mm)	Hopper Capacity	Dispenser Capacity	Motor HP/RPM/Watt	Weight (kg)
T (manual)	610	210	310	1 kg	600g	0.12/1300/275w	8 kg
S (automatic)	610	210	310	2 kg	600g	0.2/1300/356w	9 kg

All grinders require a 13 amp socket.

BAMBINO

Optional Extras

1. The Giant Filter Holder

The Fracino Giant Filter holder is an optional extra and produces sufficient coffee for 6 shots (48g) of espresso or 1 litre (approx.) of filter coffee for bulk brewing.

2. Knock Out Drawers

Drawers available for under coffee machine in 1,2 or 3 group sizes. Under counter and under grinder drawers also available.

3. Cups & Glasses

Fracino branded cups and saucers for the perfect drink. Sold in boxes of 6 of each.

Fracino BAMBINO

Fracino are pleased to announce the introduction of the eye-catching and compact Bambino coffee machine. The Bambino provides a top quality 1 or 2 group coffee machine with semi-automatic or electronic options and is exceptional value for money. It is an excellent opportunity for bespoke branding from the UK's only manufacturer of espresso and cappuccino coffee machines.

The Bambino is the latest addition to the Fracino family and benefits from all the world-class skills, innovative design and state of the art production methods from this world-renowned manufacturer. Coupled with a model T grinder and the economy knock-out drawer the Bambino will make a stunning addition to any bar, restaurant or coffee shop for a surprisingly low level of investment.
